

Milestone 1

**Team Number:** 5

**Team Name:** Phil's Philippines

**Team Members:** Kevin Busch, Timothy Vaught, Sophie Ciulla, Elizabeth Eyeson, Fengwei Zhang, Ziqi Zhao

**Application Name:** Artscape

**Application Description:** Digital art gallery where images are composites of smaller images. The gallery is intended to be interactive. For example, viewers can click on the image and recreate a new image or click deeper into the gallery. Information about the image is also displayed.

**Vision Statement:**

At Artscape, your art journey is just a few mosaics away :D

**Version Control:**

<https://github.com/CSCI-3308-CU-Boulder/209-5-FA20.git>

**Development Method:**

<https://csci-3308-fa20-209-5.atlassian.net/secure/RapidBoard.jspa?rapidView=1&projectKey=A25&view=planning.nodetail&selectedIssue=A25-10&issueLimit=100&selectedEpic=A25-4&atlOrigin=eyJpIjoiY2Q4ZmMxMTBiMjhhNGI5NmE3NDA0NjcwODdiNGFmN2QiLCJwljoaij9>

**Communication Plan:**

Our team plans to primarily use GroupMe for communication. It is simple to use and allows for easy communication between all of our members. For sharing documents and other information we will use Google Drive and email. Since we all have CU Boulder gmail accounts this is especially convenient. We will use Zoom for meetings and deeper discussions about our project.

**Meeting Plan:**

- Day: Wednesdays
- Time: 6-8pm
- Platform: Zoom
- Mode: Face-to-face meetings

## Proposed Architecture Plan:

- Front End: Node.js, Python
- Back End: Python

## Use Case Diagram:
